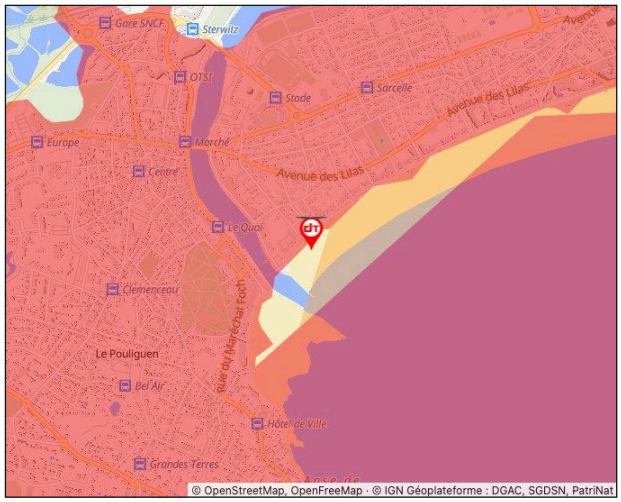
The Port of Le Pouliguen

Water · Loire-Atlantique

GPS coordinates	47.27493, -2.42229
Elevation	3 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	La Baule-Escoublac Airport (LFRE) 5.9 km E · spot 29 m lower
Spot reference	299338



Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Mon 23 Nov	07:51	08:25	17:27	18:01	9 h 01	08:25–09:14 · 16:38–17:27
Tue 24 Nov	07:52	08:27	17:26	18:00	8 h 59	08:27–09:16 · 16:37–17:26

Centre Hospitalier Heliport	Heliport	14 km E	19 m
Saint-Nazaire-Montoir Airport	Airport	20 km E	4 m

Description

This is the only place in the bay of La Baule where one can fly "legally" as an amateur. The port of Le Pouliguen is located west of the bay. It is a place to shelter your boat but also a place to relax where it is good to come and walk there at the end of the day and stroll along the quays enjoying an ice cream or a famous niniche.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=299338

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
