FLIGHT CARD

Generated on 24 November 2026

Basilicata: Scanzano Jonico - Third Cavone

Water · Italy

GPS coordinates	40.28975, 16.77480
Elevation	2 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Policoro Saline Flying Field 9.0 km SW · same altitude as the spot
Spot reference	300037

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Marina di Ginosa Heliport	Heliport	18 km NE	8 m
Enrico Mattei Airfield	Aerodrome	25 km NW	55 m

Description

The Terzo Cavone Beach of Scanzano Jonico (province of Matera) owes its name to the river of the same name which flows nearby. The beach is beautiful and is formed by a large and long coastline of soft golden sand, surrounded by trees. The sea is beautiful, blue and extraordinarily transparent, rich in flora and fauna.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
