Cavillore Plateau

Mountain · Alpes-Maritimes

GPS coordinates	43.73011, 6.97130
Elevation	1,033 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Cipieres Alpes Dazur ULM 10 km NW · spot 122 m lower
Spot reference	296405

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:03	07:34	17:02	17:33	9 h 27	07:34–08:18 · 16:18–17:02
Sun 22 Nov	07:04	07:35	17:01	17:33	9 h 25	07:35–08:20 · 16:17–17:01
Mon 23 Nov	07:05	07:36	17:01	17:32	9 h 24	07:36–08:21 · 16:16–17:01

Hôpital Clavary Heliport	Heliport	13 km S	168 m
Sophia Antépolis Heliport	Heliport	13 km S	235 m
Port Vauban Heliport	Heliport	20 km SE	7 m

Description

Plateau above the village of Gourdon. Superb landscape. Beware, some raptors often turn in the corner. The access is a bit sporty. The climb is not easy but it's worth it. There is a very beautiful Roman road that crosses the plateau. To be seen.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
