LAC DE MORMOIRON PLAN D'EAU DES SALETTES

Water · Vaucluse

GPS coordinates	44.07039, 5.19481
Elevation	240 m
Maximum height	50 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aérodrome de Carpentras (LFNH) 10 km SW · spot 120 m higher
Spot reference	296889

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:11	07:42	17:08	17:40	9 h 25	07:42–08:27 · 16:23–17:08
Sun 22 Nov	07:12	07:43	17:07	17:39	9 h 23	07:43–08:28 · 16:22–17:07

Aérodrome de Carpentras	Aerodrome	10 km SW	120 m
Centre De Secours Heliport	Heliport	14 km W	87 m
Hôtel La Coquillade Heliport	Heliport	23 km SE	249 m

Description

Artificial lake of more than 2 ha in the middle of vineyards and pines with a sandy beach. Swimming is supervised in July and August. The lake is open all year round for fishing (in summer, allowed until 10 am). Other activities on site are possible, such as volleyball, football, tennis, basketball, petanque, tree climbing, mountain biking, but also a children's playground. It is also the starting point for beautiful walks to do with the family. The lake also has a restaurant-grill-glacier, the Cahute, which organizes theme evenings all summer long and offers a beautiful space for refreshment and relaxation.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
