FLIGHT CARD

Generated on 21 November 2026

Chassezac River and Secret Cliffs

Water · Ardèche

GPS coordinates	44.39611, 4.19551
Elevation	132 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Ruoms Airport (LFHF) 12 km NE · spot 22 m higher
Spot reference	296914

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:15	07:47	17:11	17:43	9 h 24	07:47–08:32 · 16:26–17:11
Sun 22 Nov	07:16	07:48	17:10	17:42	9 h 22	07:48–08:34 · 16:25–17:10
Mon 23 Nov	07:18	07:50	17:10	17:42	9 h 20	07:50–08:35 · 16:24–17:10

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Ruoms Airport	Aerodrome	12 km NE	110 m
Aubenas-Ardèche Méridional Airport	Airport	22 km NE	281 m
La Grand'combe Airfield	Aerodrome	22 km SW	502 m

Description

20 kilometres west of Vallon Pont d'Arc and 40 kilometres south of Aubenas, in the heart of southern Ardèche, the municipalities of Berrias and Casteljau joined forces in 1975. These two hamlets are separated from each other by the Gorges de Chassezac. The Chassezac is the main tributary of the Ardèche. It has its source in Lozere before descending the Ardèche mountain and digging almost impassable gorges.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
