Girsberg Castle Alsace

Heritage · Haut-Rhin

GPS coordinates	48.20342, 7.30731
Elevation	530 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Colmar-Houssen Airport (LFGA) 11 km S · spot 338 m higher
Spot reference	297046

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:12	07:47	16:47	17:21	9 h 00	07:47–08:37 · 15:57–16:47
Sun 22 Nov	07:13	07:48	16:46	17:20	8 h 57	07:48–08:38 · 15:56–16:46
Mon 23 Nov	07:15	07:49	16:45	17:20	8 h 55	07:49–08:40 · 15:54–16:45

Envol ULM Alsace	Aerodrome	18 km E	176 m

Description

Last part of a video about the walk of the three castles in Alsace (about 11 kms from Ribeauvillé), shot with a Phantom 4 Pro Obsidian. You can follow my adventures also on Instagram: https://www.instagram.com/ratonberu/. As well as on Facebook: https://www.facebook.com/Drone-Vision-571742989854535/ A little blue thumb to help referencing the channel, thank you very much, and above all, Subscribe :) Be well!

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=297046

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
