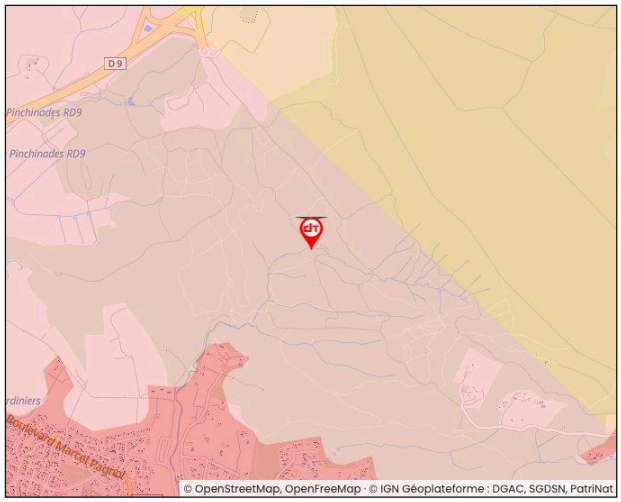
FLIGHT CARD

Generated on 23 November 2026

Source de L'Infernet

Unusual · Bouches-du-Rhône

GPS coordinates	43.43446, 5.30132
Elevation	126 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Marseille Provence Airport (LFML) 6.5 km W · spot 103 m higher
Spot reference	313869



Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Mon 23 Nov	07:11	07:42	17:08	17:39	9 h 25	07:42–08:27 · 16:24–17:08
Tue 24 Nov	07:12	07:44	17:07	17:39	9 h 23	07:44–08:28 · 16:23–17:07
Wed 25 Nov	07:13	07:45	17:07	17:38	9 h 22	07:45–08:29 · 16:22–17:07

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Marseille Provence Airport	Major airport	6.5 km W	23 m
Berre/Marignane Seaplane Base	Seaplane base	7.0 km W	2 m
Nord Heliport	Heliport	7.9 km SE	187 m
Aix - Les Milles Airport	Aerodrome	9.6 km NE	112 m

Description

SOURCE DE L'INFERNET An oasis of freshness! It flows, the Cadière flows, from Vitrolles to Marignane, where it ends its course in the Étang de Bolmon, which connects to the Étang de Berre. In a small valley, hidden in the shade of a wood and nestled beneath a rock, its source springs forth: the Infernet, a Vaucluse-type exsurgence, like at Fontaine de Vaucluse. Its flow is steady because it is fed by underground overflows from the Réaltor basin, built in 1869, which regulate the flow of the Marseille canal. Part of the watercourse is a fishing reserve. Fish shelters, spawning grounds and water retention under the banks have been set up to protect the aquatic environment. Come with your children This site is a real little paradise, even though its name means "coming out of hell"! A legend* tells of a "red griffin", an avatar of the medieval dragon, that once lived among the red rocks and …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
