FLIGHT CARD

Generated on 21 November 2026

The Barillette

Mountain · Switzerland

GPS coordinates	46.42987, 6.12584
Elevation	1,524 m
Maximum height	100 m max
Access	Direct access by car
Nearest aerodrome	Hôtel Du Château Heliport 8.0 km S · spot 1,013 m higher
Spot reference	297721

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:12	07:46	16:57	17:30	9 h 11	07:46–08:33 · 16:10–16:57
Sun 22 Nov	07:14	07:47	16:56	17:30	9 h 09	07:47–08:35 · 16:09–16:56
Mon 23 Nov	07:15	07:48	16:56	17:29	9 h 07	07:48–08:36 · 16:08–16:56

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Hôtel Du Château Heliport	Heliport	8.0 km S	511 m
La Côte Airport	Aerodrome	10 km E	412 m
Geneva Cointrin International Airport	Major airport	21 km S	430 m

Description

Airshoot made around the Barillette site with a DJI F550 and its GoPro Hero 3 on ZenMuse H3-2D. The transmitter should soon be destroyed and rebuilt with a new, more modern and stronger structure! And on a beautiful day in July 2014, we brought these images back. Based on an idea by Cédric Suter (HB3YNV,Yoop.ch) More videos on Airshoot.ch

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
