Aescher

Unusual · Switzerland

GPS coordinates	47.28362, 9.41468
Elevation	1,570 m
Maximum height	100 m max
Access	On foot > 1,000 m
Nearest aerodrome	Feldkirch Heliport 13 km E · spot 1,128 m higher
Spot reference	298202

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:01	07:35	16:41	17:15	9 h 06	07:35–08:24 · 15:53–16:41
Sun 22 Nov	07:03	07:36	16:40	17:14	9 h 03	07:36–08:25 · 15:52–16:40
Mon 23 Nov	07:04	07:38	16:40	17:14	9 h 01	07:38–08:27 · 15:51–16:40

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Feldkirch Heliport	Heliport	13 km E	442 m
Dr. Schenk Heliport	Heliport	13 km E	442 m
Feldkirch State Hospital Helipad	Heliport	14 km SE	484 m
Trogen Heliport	Heliport	15 km N	807 m

Description

A short film about the beautiful region of Aescher and Ebenalp in Appenzell, Switzerland. The Aescher recently became world famous as a picture of the charming guesthouse was chosen as cover of National Geographics "Destinations of a Lifetime". The beautiful mountain when looking directly towards the sun is called Säntis. Music: Sigur Rós – Dauðalogn, all rights belong to their respective owners And sorry for using Ä in the video instead of Ae... Call it artistic freedom ;)

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
