FLIGHT CARD

Generated on 21 November 2026

The Cherry Bridge

Water · La Réunion

GPS coordinates	43.85367, 7.12562
Elevation	184 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Hôpital L'Archet 2 Heliport 19 km SE · same altitude as the spot
Spot reference	298709

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:02	07:34	17:01	17:32	9 h 27	07:34–08:18 · 16:16–17:01
Sun 22 Nov	07:03	07:35	17:00	17:32	9 h 25	07:35–08:20 · 16:16–17:00
Mon 23 Nov	07:05	07:36	17:00	17:31	9 h 23	07:36–08:21 · 16:15–17:00

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Hôpital L'Archet 2 Heliport	Heliport	19 km SE	185 m
Hôpital Lenval Heliport	Heliport	21 km SE	35 m
Cipieres Alpes Dazur ULM	Aerodrome	23 km W	1,155 m
Nice-Côte d'Azur Airport	Major airport	23 km S	4 m

Description

In the Alpes Martimes, you go up the Var on the N202bis coming from Nice, you turn left to find yourself on the D17 and continue in the direction of Gillette and then to the place called Colle Belle. Shortly after the place, you will have the entrance to a path on the left. 20 minutes will be enough for you to reach this magnificent place that is the Cerise Bridge. Get some comfortable shoes... It is possible to swim there. The place is quite secluded so there is little chance you will find anyone there except in the summer when it is a place that is beginning to be known for cooling off.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
