Flying to the pond of Armainvilliers!

Water · Seine-et-Marne

GPS coordinates	48.76496, 2.76409
Elevation	109 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Lognes Emerainville (LFPL) 12 km NW · same altitude as the spot
Spot reference	298919

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:32	08:07	17:03	17:38	8 h 56	08:07–08:58 · 16:12–17:03
Sun 22 Nov	07:33	08:08	17:02	17:37	8 h 53	08:08–08:59 · 16:11–17:02
Mon 23 Nov	07:34	08:10	17:01	17:36	8 h 51	08:10–09:01 · 16:10–17:01

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lognes Emerainville	Aerodrome	12 km NW	109 m
Aérodrome de Fontenay Trésigny	Aerodrome	12 km SE	113 m
Aérodrome de Chelles-le-Pin	Aerodrome	19 km NW	63 m
Aérodrome de Meaux-Esbly	Aerodrome	19 km N	66 m

Description

This spot is located near the village of Favières, surrounded by fields. There is a small path accessible by car (beware of potholes!) that will take you there without any hassle. This place is ideal to practice driving in the fields, but is also a great starting point to reach the pond of Armainvilliers!

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=298919

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
