The summit of Cuore

Mountain · Alpes-Maritimes

GPS coordinates	43.87091, 7.49802
Elevation	1,060 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Casa del Mare Helipad 13 km S · spot 1,055 m higher
Spot reference	298961

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:01	07:32	16:59	17:31	9 h 27	07:32–08:17 · 16:15–16:59

Aerodrome	Type	Distance	Elevation
Casa del Mare Helipad	Heliport	13 km S	5 m
Avenue Impératrice Eugénie Heliport	Heliport	13 km S	36 m
Avenue Douine Heliport	Heliport	13 km S	44 m
Terre-Plein du Larvotto Heliport	Heliport	15 km S	6 m

Description

Today we take you to the summit of CUORE in the Alpes Maritimes on the SOSPEL side of the border with ITALY, to get there you will have to climb about 10 km with a positive difference in altitude of 1000 m. including 850 m. on the first 6.5 km. Unfortunately for us arrived up the brunette and the clouds invited themselves.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
