FLIGHT CARD

Generated on 23 November 2026

Front beach Honfleur (Normandy)

Water · Calvados

GPS coordinates	49.42465, 0.20908
Elevation	2 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	La Ferme Saint Siméon Heliport 1.0 km E · spot 29 m lower
Spot reference	299361

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Mon 23 Nov	07:46	08:22	17:09	17:45	8 h 46	08:22–09:15 · 16:16–17:09
Tue 24 Nov	07:48	08:24	17:08	17:44	8 h 44	08:24–09:16 · 16:15–17:08
Wed 25 Nov	07:49	08:25	17:07	17:43	8 h 41	08:25–09:18 · 16:14–17:07

Aerodrome	Type	Distance	Elevation
La Ferme Saint Siméon Heliport	Heliport	1.0 km E	31 m
Deauville-Saint-Gatien Airport	Airport	7.7 km SW	146 m
Usine Renault Heliport	Heliport	8.9 km NE	5 m
Hopital Jacques Monod Heliport	Heliport	11 km N	12 m

Description

Before Honfleur, a car park allows you to leave your car and go directly to the beach below. At low tide it's a treat! Watch out for gusts of wind. At the end of October 2018, no worries about seagulls ... perhaps more problematic in summer!

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=299361

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
