Drone in the woods

Unusual · Netherlands

GPS coordinates	52.23999, 4.45001
Elevation	3 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Grand Hotel Huis ter Duin 1.6 km W · same altitude as the spot
Spot reference	299483

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Mc Haaglanden. Locatie Westeinde Heliport	Heliport	21 km SW	7 m

Description

For the last few weeks we have been testing the Syn Y6 Airframe and here are some of the shots ive taken last week in the forrest. I had heard that they were cutting some trees down in a local forrest and i thought i might be cool to make some shots of the log's. I was very happy with the results and the Syn Y6 + Zenmuse 2dH3 performed 100% if you ask me...yay! Syndrone Y6 airframe Zenmuse 2DH3 2x 5000mah 4S 13 inch Xoar -axi 2826-12

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=299483

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
