Hippodrome de la Solle (Fontainebleau - 77)

Unusual · Seine-et-Marne

GPS coordinates	48.43784, 2.68955
Elevation	87 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Moret Episy Airfield (LFPU) 13 km SE · spot 10 m higher
Spot reference	299839

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:31	08:06	17:04	17:39	8 h 58	08:06–08:56 · 16:14–17:04

Melun-Villaroche Air Base	Airport	19 km N	92 m
Buno Bonnevaux Airfield	Aerodrome	22 km SW	128 m
Centre Hospitalier Heliport	Heliport	23 km NW	78 m

Description

Situated in the middle of the Fontainebleau forest, this racecourse is right next to a fairly large clearing where it is easy to take off and land safely. Parking with access to the clearing a few dozen meters away. Possibility to fly over the surroundings of the racecourse, the clearing and the forest of Fontainebleau. Possibility also to fly in undergrowth in the rocks but there, be careful with the trees and it is better to deactivate the RTH! Beware of the rather numerous walkers in this area. Area limited to a flying height of 150 m but that day a small tourist plane passed quite low over the clearing !!! Landing now!

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
