FLIGHT CARD

Generated on 21 November 2026

Toulouse Cross - Fontainebleau

Unusual · Seine-et-Marne

GPS coordinates	48.44448, 2.71909
Elevation	89 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Moret Episy Airfield (LFPU) 13 km SE · spot 12 m higher
Spot reference	299851

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:31	08:06	17:04	17:39	8 h 58	08:06–08:56 · 16:14–17:04
Sun 22 Nov	07:32	08:07	17:03	17:38	8 h 55	08:07–08:58 · 16:13–17:03
Mon 23 Nov	07:34	08:09	17:02	17:37	8 h 53	08:09–08:59 · 16:12–17:02

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Moret Episy Airfield	Aerodrome	13 km SE	77 m
Melun-Villaroche Air Base	Airport	18 km N	92 m
Buno Bonnevaux Airfield	Aerodrome	24 km SW	128 m
Centre Hospitalier Heliport	Heliport	24 km NW	78 m

Description

A hole in the heart of the Fontainebleau forest, this site where an obelisk stands in the middle of a roundabout, allows you to try your hand at hyperlapse while enjoying an exceptional natural site. You can also come and get images of sunrise over the forest and fly in the dark 30 minutes before sunrise (aeronautical sunrise time) when the illusion of "night flying" in all legality is almost real! Close by (1.5 km on foot and 1000 m by drone flight) the Tour Dénecourt... Nice spot also identified on the site. Direct access by car, open spaces for take-off or landing and ideal parking for going to the Tour Dénecourt. CAUTION: Do not overfly the roads, the roundabout and the often numerous walkers in the vicinity. Have a good flight and good shots

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
