Panoramas of Liguria seen from the drone : Terre Bianche

Unusual · Italy

GPS coordinates	43.83628, 7.60985
Elevation	373 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Avenue Douine Heliport 14 km SW · spot 329 m higher
Spot reference	300196

Casa del Mare Helipad	Heliport	15 km SW	5 m
Terre-Plein du Larvotto Heliport	Heliport	17 km SW	6 m

Description

In the first stage of the Alta Via dei Monti Liguri, on the slopes of Monte Baraccone, you will find the white and suggestive gullies of the "Terre Bianche": a landscape of spires almost fairy-tale shaped by erosion. And all around the characteristic environment of Liguria, shaped by Nature and the work of Man, where vineyards, olive groves and Mediterranean maquis blend together between sky and sea.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
