FLIGHT CARD

Generated on 21 November 2026

Ancizan's Cap

Mountain · Hautes-Pyrénées

GPS coordinates	42.90240, 0.30730
Elevation	1,495 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Altisurface des Quatre Veziaux - La Hourquette d'Ancizan 0.9 km SW · spot 225 m lower
Spot reference	300490

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:27	07:58	17:31	18:02	9 h 32	07:58–08:42 · 16:47–17:31
Sun 22 Nov	07:29	08:00	17:30	18:01	9 h 30	08:00–08:43 · 16:47–17:30
Mon 23 Nov	07:30	08:01	17:30	18:01	9 h 28	08:01–08:45 · 16:46–17:30

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altisurface des Quatre Veziaux - La Hourquette d'Ancizan	Aerodrome	0.9 km SW	1,720 m
La Serre D'aulon Altiport	Aerodrome	7.9 km S	2,000 m
Super Bareges - Plateau de Monhaillat	Aerodrome	15 km W	1,859 m
Altisurface de Ferrère Batmale	Aerodrome	16 km E	1,600 m

Description

Top of a small 1st category pass above the Lake Payolle. Direct access by car. It is possible to reach a small lake 5km walking distance above. Clear space, no limitation (150m). PS: video made for friends doing the 4L Trophy, the hourquette is more visible at the end of the video.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=300490

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
