FLIGHT CARD

Generated on 21 November 2026

Baie de la Somme (Le Hourdel)

Water · Somme

GPS coordinates	50.20197, 1.57872
Elevation	5 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Eu Mers Le Treport Airfield (LFAE) 18 km SW · spot 95 m lower
Spot reference	301216

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:40	08:17	17:02	17:39	8 h 45	08:17–09:10 · 16:09–17:02
Sun 22 Nov	07:42	08:18	17:01	17:38	8 h 43	08:18–09:12 · 16:08–17:01
Mon 23 Nov	07:43	08:20	17:00	17:37	8 h 40	08:20–09:14 · 16:07–17:00

Nearby aerodromes

Eu Mers Le Treport Airfield	Aerodrome	18 km SW	100 m
Abbeville	Airport	19 km E	67 m
Abbeville Medical Center Heliport	Heliport	21 km SE	25 m
Centre Hospitalier Heliport	Heliport	24 km N	13 m

Description

Stroll over the Bay of the Somme. At low tide, the landscapes left by the water flow and the canals thus dug are magnificent. If you are lucky, you may even see seals roaming the sandbanks. Don't get too close so as not to disturb them. Possible departure from the pointe du Hourdel but beware of a lot of people as soon as the weather is nice! Other accesses are therefore possible on foot. Good flights ;)

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=301216

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
