Col de Lèques	Aerodrome	19 km NE	1,126 m

Description

The Gorges du Verdon are located in the north of Provence. It is the largest canyon in Europe, it offers breathtaking landscapes. You can also enjoy family bathing or white water sports. The Verdon rises at 2819 metres at the Col d'Allos pass then joins the Durance at Vinon sur Verdon. Its total length is 175 km. But the most sensational is the height of the cliffs which varies from 250 to 700 meters, the width ranging from 6 to 100 meters and from 200 to 1500 meters at the top of the gorges. Search for 'Samson corridor' in google map in 3D (https://www.google.com/maps/place/Couloir Samson/@43.7804039,6.392062,1878a,35y,4.54h,17.35t/data=!3m1!1e3!4m5!3m4!1s0x12cbf7c31bf65d99:0x37a2ed514db980d5!8m2!3d43.786741!4d6.395368). Ah, I think I'll go back soon and show you this up close! Beware during the tourist season of the number of motorcyclists and camper vans that frequent this beautiful …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
