FLIGHT CARD

Generated on 24 November 2026

Marina di Pisticci

Water · Italy

GPS coordinates	40.29594, 16.78199
Elevation	2 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Policoro Saline Flying Field 9.8 km SW · same altitude as the spot
Spot reference	301467

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Pisticci Flying Field	Aerodrome	17 km NW	31 m
Enrico Mattei Airfield	Aerodrome	25 km NW	55 m

Description

Between 5:30 and 06:00 in the morning the sun is already high in July on the Ionian coast. One can quietly fly over the beach and the sea of oil without disturbing the onlookers. There are a few boats and the fishermen's nets are ready. In the open sea, we will leave the dolphins alone... Southern Italy and Basilicata are beautiful.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=301467

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
