Route des Grands Goulets

Unusual · Drôme

GPS coordinates	45.00804, 5.41155
Elevation	601 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Saint-Jean-en-Royans Airport (LFKE) 8.3 km W · spot 337 m higher
Spot reference	301656

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:13	07:45	17:04	17:36	9 h 18	07:45–08:31 · 16:18–17:04
Mon 23 Nov	07:14	07:47	17:03	17:35	9 h 16	07:47–08:33 · 16:17–17:03
Tue 24 Nov	07:15	07:48	17:02	17:35	9 h 14	07:48–08:34 · 16:16–17:02

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Saint-Jean-en-Royans Airport	Aerodrome	8.3 km W	264 m
Quartier-Reynies Heliport	Heliport	24 km NE	220 m
Altisurface de l'Escoulin	Aerodrome	25 km SW	660 m

Description

The old corbelled road built from 1843 to 1854, one of the accesses to the Vercors, on the D518, has been replaced since 2008 by a tunnel due to frequent landslides. Les Grands Goulets is classified as a picturesque site under the environment and natural zone of ecological, faunistic and floristic interest (ZNIEFF). Source Wikipedia.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
