Storifoss

Mountain · Iceland

GPS coordinates	64.11656, -21.82305
Elevation	38 m
Maximum height	100 m max
Access	Direct access by car
Nearest aerodrome	Reykjavik Airport (BIRK) 5.9 km W · spot 23 m higher
Spot reference	301802

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	09:12	10:15	16:11	17:15	5 h 55	–
Sun 22 Nov	09:14	10:18	16:09	17:13	5 h 50	–
Mon 23 Nov	09:17	10:21	16:06	17:11	5 h 44	–

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Reykjavik Airport	Airport	5.9 km W	15 m
Tungubakkar Airport	Aerodrome	9.1 km NE	2 m
Sandskeið Airport	Aerodrome	14 km SE	183 m

Description

If music is added to a video using YouTube, it affects the maximum resolution, i.e. it will be capped at 1080p if it was 4K originally. Here is the raw footage of Stórifoss again, in 4K.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
