Cascade de la pissevache

Water · Switzerland

GPS coordinates	46.14409, 7.02933
Elevation	476 m
Maximum height	100 m max
Access	On foot < 1,000 m
Nearest aerodrome	Bex Airport (LSGB) 13 km N · spot 76 m higher
Spot reference	302120

Spot location and restrictions (Drone-Spot map image)

Altiport de Croix de Coeur	Aerodrome	16 km E	2,128 m
Altisurface du Glacier Du Tour	Aerodrome	18 km S	3,100 m

Description

Near Miéville, not far from Martigny. Easy access with parking 100 m from the waterfall. Altitude and height of the waterfall 105m, beware of the spray generated by the waterfall if you go too close down. With sunshine in the early morning possibility to have multiple rainbows in the waterfall, said a professional photographer who accompanied me. Also beware of the mountain breeze which can be strong at this place.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
