FLIGHT CARD

Generated on 21 November 2026

Hohenfreyberg and Eisenberg Castle

Heritage · Germany

GPS coordinates	47.61376, 10.58775
Elevation	1,041 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Füssen Glider Airfield 8.5 km SE · spot 252 m higher
Spot reference	302205

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour

Aerodrome	Type	Distance	Elevation
Füssen Glider Airfield	Aerodrome	8.5 km SE	789 m
Reutte-Höfen Airport	Aerodrome	18 km SE	855 m
Reutte Heliport	Heliport	18 km SE	860 m
Kempten-Durach Airfield	Aerodrome	21 km NW	713 m

Description

Hohenfreyberg Castle, together with Eisenberg Castle directly opposite, forms a group of castles visible from afar in the southern Allgäu, about four kilometres north of Pfronten in the Ostallgäu district. The late medieval summit castle was abandoned and set on fire during the Thirty Years' War. From 1995 to 2006, the former aristocratic residence was elaborately secured and conserved as part of a much-noticed "sample restoration".

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
