Le Mouton d'Anou near BEZAUDUN-les-Alpes

Mountain · Alpes-Maritimes

GPS coordinates	43.79017, 7.12505
Elevation	1,071 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Hôpital L'Archet 2 Heliport 13 km SE · spot 885 m higher
Spot reference	302772

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:02	07:34	17:01	17:33	9 h 27	07:34–08:18 · 16:17–17:01
Sun 22 Nov	07:03	07:35	17:00	17:32	9 h 25	07:35–08:19 · 16:16–17:00

Aerodrome	Type	Distance	Elevation
Hôpital L'Archet 2 Heliport	Heliport	13 km SE	185 m
Hôpital Lenval Heliport	Heliport	15 km SE	35 m
Nice-Côte d'Azur Airport	Major airport	16 km SE	4 m
Sophia Antépolis Heliport	Heliport	20 km SW	235 m

Description

I propose you to discover today, Anou's sheep, a small peak of 1079 M of altitude located near the village of Bezaudun les Alpes, which can be reached from the beacon 135 by a 2.5 km path without difficulty. Despite its small size, the location of this summit offers beautiful views of the Alpine chain and the coast.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
