Lighthouse of La Poterie Cap d'Antifer

Water · Seine-Maritime

GPS coordinates	49.68349, 0.16546
Elevation	98 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Centre Hospitalier Heliport 17 km NE · same altitude as the spot
Spot reference	303075

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Le Havre Octeville Airport	Airport	18 km S	95 m
Hopital Jacques Monod Heliport	Heliport	18 km S	12 m
Aérodrome du Havre - Saint-Romain	Aerodrome	21 km SE	129 m

Description

This is the lighthouse overlooking the cliff at Antifer. Between Le Havre and Fecamp, this spot is incredible because of its accessibility and the breathtaking view of the Channel Sea. At sunset, the colours and the landscape become even more fascinating.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
