Flycatcher Radar

Mountain · Isère

GPS coordinates	45.14840, 5.63988
Elevation	1,874 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Quartier-Reynies Heliport 6.4 km SE · spot 1,654 m higher
Spot reference	303995

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:12	07:45	17:02	17:35	9 h 17	07:45–08:31 · 16:16–17:02
Mon 23 Nov	07:14	07:46	17:02	17:34	9 h 15	07:46–08:32 · 16:15–17:02
Tue 24 Nov	07:15	07:47	17:01	17:33	9 h 13	07:47–08:34 · 16:14–17:01

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Quartier-Reynies Heliport	Heliport	6.4 km SE	220 m
Hôpital Nord Heliport	Heliport	10 km NE	218 m
Aérodrome de Grenoble Le Versoud	Aerodrome	18 km NE	220 m

Description

Radar antenna at the top of the hike. There are a lot of people at the summit so I advise you to fly during the hike. Great view over Grenoble and the valley on both sides.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=303995

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
