FLIGHT CARD

Generated on 21 November 2026

Dehes Wood, The haillan

Unusual · Gironde

GPS coordinates	44.89233, -0.67980
Elevation	12 m
Maximum height	30 m max
Access	On foot < 1,000 m
Nearest aerodrome	Bordeaux-Mérignac Airport (LFBD) 7.7 km S · spot 37 m lower
Spot reference	304348

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:36	08:08	17:29	18:01	9 h 21	08:08–08:54 · 16:43–17:29
Sun 22 Nov	07:37	08:09	17:28	18:01	9 h 19	08:09–08:55 · 16:43–17:28
Mon 23 Nov	07:38	08:11	17:28	18:00	9 h 17	08:11–08:57 · 16:42–17:28

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Bordeaux-Mérignac Airport	Major airport	7.7 km S	49 m
Pellegrin Centre Hospitalier Heliport	Heliport	9.3 km SE	105 m
Robert Piqué Hôpital Militaire Heliport	Heliport	13 km SE	19 m
Bordeaux Yvrac Airport	Aerodrome	16 km E	73 m

Description

Forest area with little traffic. The ideal place to learn about FPV (by marking out at least your playing area) at a stone's throw away from the Bordeaux wine growing area. The wood is bordered by the Bordeaux- Lacanau cycle path and the river La Jalle. To see: the Haut Percher peri-urban refuge. Flight allowed up to 30 m.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=304348

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
