The Mont Saint-Michel

Heritage · Manche

GPS coordinates	48.61852, -1.46063
Elevation	9 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	Le Val St Père (LFRW) 6.3 km NE · same altitude as the spot
Spot reference	304571

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:48	08:23	17:20	17:55	8 h 57	08:23–09:14 · 16:30–17:20
Sun 22 Nov	07:50	08:25	17:19	17:54	8 h 54	08:25–09:15 · 16:29–17:19
Mon 23 Nov	07:51	08:26	17:18	17:54	8 h 52	08:26–09:17 · 16:27–17:18

Le Val St Père	Aerodrome	6.3 km NE	8 m
Avranches Heliport	Heliport	12 km NE	11 m

Description

Mont-Saint-Michel is a French commune located in the department of Manche in Normandy. It takes its name from the rocky islet dedicated to Saint Michel where the Mont-Saint-Michel Abbey stands today. The legal spot is accessible via the D275 on which wide shoulders allow you to park there while you take a ride with your aircraft. The view is unobstructed and allows, in good weather, to see the Mont while respecting the legislation in force.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=304571

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
