Aosta Valley, la Thuile, hamlet of la Joux

Mountain · Italy

GPS coordinates	45.66781, 6.99537
Elevation	2,588 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Mont Blanc Hélicoptères 16 km SW · spot 557 m higher
Spot reference	304587

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:07	07:40	16:56	17:29	9 h 16	07:40–08:26 · 16:10–16:56
Sun 22 Nov	07:08	07:41	16:55	17:28	9 h 14	07:41–08:28 · 16:09–16:55

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Mont Blanc Hélicoptères	Heliport	16 km SW	2,031 m
Altisurface du Glacier Du Dome Du Gouter	Aerodrome	23 km NW	4,200 m
Altiport de la Tovière	Aerodrome	23 km S	2,240 m
Altiport de Vaugellaz	Aerodrome	23 km W	2,020 m

Description

To get to the foot of the glacier you have to go up the valley along the Ruitor torrent with its 4 beautiful and imposing waterfalls. At the Deffeyes hut you enter a very mineral, rough and austere world, but how superb and exotic with very subjective views and panoramas. To avoid the crowds along the waterfalls, the return trip will take place if possible on the left bank of the torrent in a beautiful vegetation already in the colours of autumn, following the Sentiero del Centocinquantenario (Path of the Centocinquantenario).

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
