The pozzines of Val d'Eze.

Unusual · Corse

GPS coordinates	42.03446, 9.14013
Elevation	1,785 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Aérodrome de Ghisonaccia - Alzitone (LFKG) 22 km E · spot 1,731 m higher
Spot reference	304879

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	06:50	07:21	16:58	17:28	9 h 37	07:21–08:03 · 16:15–16:58
Sun 22 Nov	06:51	07:22	16:57	17:28	9 h 35	07:22–08:05 · 16:14–16:57
Mon 23 Nov	06:52	07:23	16:57	17:27	9 h 33	07:23–08:06 · 16:14–16:57

Aérodrome de Ghisonaccia - Alzitone	Aerodrome	22 km E	54 m
Base ULM d'Aghione Casone	Aerodrome	24 km E	51 m

Description

If there is one place you shouldn't miss when visiting Corse-du-Sud, it's the Pozzines of Bastelica. As a simple lover of pretty Corsican landscapes, the name may not mean much to you. Pozzines are actually grassy meadows crossed by streams and dotted with small ponds. They are also called pozzi when the ponds are a bit bigger. Either way, it's an extraordinary landscape! The pozzines are located in the heart of the mountains. To get to Bastelica, the easiest way is to start from Ajaccio. You'll be there after about 40 kilometers. Then you'll need to get to the Val d'Ese resort. Once you arrive at the resort, you'll have to park your car, put on good hiking shoes, grab a windbreaker and a backpack, and start the climb! The round trip, depending on the walk you choose, is estimated at 4 to 5 hours of walking. The hike is perfectly doable with the family. You'll cross the Ese plateau, go …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
