Etang de Touverac

Water · Charente

GPS coordinates	45.38025, -0.18831
Elevation	128 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Chalais Airfield (LFIH) 20 km SE · spot 42 m higher
Spot reference	306516

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:35	08:08	17:26	17:58	9 h 18	08:08–08:54 · 16:39–17:26
Sun 22 Nov	07:36	08:09	17:25	17:57	9 h 16	08:09–08:55 · 16:39–17:25
Mon 23 Nov	07:38	08:10	17:24	17:57	9 h 14	08:10–08:57 · 16:38–17:24

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Chalais Airfield	Aerodrome	20 km SE	87 m
Aérodrome de Jonzac Neulles	Aerodrome	22 km NW	39 m
Aérodrome de Montendre-Marcillac	Aerodrome	24 km SW	45 m

Description

Not far from the N10, the Touverac ponds are a place as magical as the Guizengeard lakes. A nature to be preserved and a wild place where nature is taking back control from man

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
