Le Bettex

Mountain · Haute-Savoie

GPS coordinates	45.86970, 6.68622
Elevation	1,401 m
Maximum height	60 m max
Access	On foot > 1,000 m
Nearest aerodrome	Megève Altiport (LFHM) 5.9 km SW · spot 69 m lower
Spot reference	306578

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:09	07:41	16:57	17:29	9 h 15	07:41–08:28 · 16:10–16:57
Sun 22 Nov	07:10	07:43	16:56	17:29	9 h 13	07:43–08:30 · 16:09–16:56
Mon 23 Nov	07:11	07:44	16:55	17:28	9 h 10	07:44–08:31 · 16:08–16:55

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Megève Altiport	Aerodrome	5.9 km SW	1,470 m
Centre Hospitalier Heliport	Heliport	8.0 km NW	546 m
Altisurface de Saint-Roch Mayères	Aerodrome	12 km NW	1,560 m
Magland Heliport	Heliport	13 km N	2,300 m

Description

In the Pays du Mont Blanc, a place fully committed to the roof of Europe, Mont Blanc, which peaks at 4810m, there are many activities on offer from the Bettex resort in every season. Skiing, Nordic walking or summer hiking, and mountain biking too. Escape to the balcony with a view of the Mont Blanc Range, but not only that... Indeed, from this unique hiking area in Haute Savoie, you will also enjoy the panoramic view over the whole upper Arve valley. Just to the left is the Fiz range, and by turning a little further, the Aravis range is there for you to admire. On the path to Saint Nicolas de Véroce and at the start of the ascent of Mont Joly, the walk here is pleasant and full of well-being. The tall fir trees can be a hindrance for DRONE flying, but with precision and care, you can get a rather positive result. HAUTE NATURE IMAGES, travel, inspiration and images VIDEO link

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
