FLIGHT CARD

Generated on 21 November 2026

Cambous Dam, Gard, coming down from the Lozère.

Heritage · Gard

GPS coordinates	44.23333, 3.98673
Elevation	214 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	La Grand'combe Airfield (LFTN) 2.4 km NE · spot 288 m lower
Spot reference	306930

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Aerodrome	Type	Distance	Elevation
La Grand'combe Airfield	Aerodrome	2.4 km NE	502 m
Aérodrome d'Alès Cévennes	Airport	22 km SE	204 m

Description

An accessible dam! The place is superb. Nearby you can rent pedal boats and canoes for a trip on the lake. Calm and relaxing, a restful place. Coming down from the Lozère, as you enter the Gard, take the road on the right toward La Grand Combe/Ales.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
