CARRELETS OF THE ESTUARY

Heritage · Gironde

GPS coordinates	45.25556, -0.74467
Maximum height	60 m max
Access	Direct access by car
Nearest aerodrome	Lesparre St Laurent Medoc Airfield (LFDU) 13 km SW
Spot reference	307303

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:37	08:09	17:28	18:01	9 h 18	08:09–08:55 · 16:42–17:28
Sun 22 Nov	07:38	08:11	17:28	18:00	9 h 16	08:11–08:57 · 16:41–17:28
Mon 23 Nov	07:39	08:12	17:27	17:59	9 h 14	08:12–08:58 · 16:40–17:27

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lesparre St Laurent Medoc Airfield	Aerodrome	13 km SW	32 m
Centre Hospitalier Saint Nicolas De Blay Heliport	Heliport	15 km SE	25 m
Clinique Du Medoc Heliport	Heliport	16 km W	9 m
Aérodrome de Montendre-Marcillac	Aerodrome	23 km E	45 m

Description

Gironde estuary: the carrelets, legendary fishing installations much loved by anglers. Around the Gironde estuary, there are nearly 500 of them. Mostly tenants of these installations, some anglers decide to build their own huts. Everyone who has ever strolled along the Gironde estuary knows them well. Perched high on four pillars and fitted with a large square net, which gives it its name, the carrelet certainly doesn't go unnoticed. "Between the Bec d'Ambès and Soulac, and as far as Meschers, there are about 500 carrelets," estimates Gérard Mounier, president of the association of carrelet fishermen of the Gironde estuary.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
