FLIGHT CARD

Generated on 21 November 2026

La Pointe de Saint-Mathieu

Water · Finistère

GPS coordinates	48.32933, -4.76924
Elevation	24 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Base ULM de Plouarzel 12 km NE · spot 98 m lower
Spot reference	307365

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	08:01	08:35	17:34	18:09	8 h 59	08:35–09:26 · 16:44–17:34
Sun 22 Nov	08:02	08:37	17:34	18:08	8 h 56	08:37–09:27 · 16:43–17:34
Mon 23 Nov	08:03	08:38	17:33	18:08	8 h 54	08:38–09:29 · 16:42–17:33

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Base ULM de Plouarzel	Aerodrome	12 km NE	122 m
Île-Molène Heliport	Heliport	16 km NW	15 m
La Cavale Blanche Centre Hospitalier Heliport	Heliport	20 km NE	37 m
Amirauté Heliport	Heliport	21 km E	2 m

Description

Be careful: the window for flying is very narrow, even more so now than when this video was shot (summer 2019). Back then it was possible to fly at 150 m above the ground (which is the case in the video), but 120 m is still comfortable.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=307365

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
