## Sun (local times, UTC+01:00)

| Day | Dawn | Sunrise | Sunset | Dusk | Day length | Golden hour |
|---|---|---|---|---|---|---|
| **Sat 21 Nov** | 07:04 | 07:35 | 17:04 | 17:35 | 9 h 29 | 07:35–08:19 · 16:20–17:04 |
| **Sun 22 Nov** | 07:05 | 07:36 | 17:03 | 17:35 | 9 h 27 | 07:36–08:21 · 16:19–17:03 |
| **Mon 23 Nov** | 07:06 | 07:38 | 17:03 | 17:34 | 9 h 25 | 07:38–08:22 · 16:18–17:03 |

## Nearby aerodromes

| Aerodrome | Type | Distance | Elevation |
|---|---|---|---|
| Fayence Glider Field | Aerodrome | 12 km NE | 226 m |
| Hôpital Bonnet Heliport | Heliport | 18 km SE | 21 m |
| Le Luc-Le Cannet Airport | Airport | 23 km SW | 81 m |

## Description

These gorges are near Callas in the Var. The Pennafort gorges are a narrow gorge carved by a tributary of the Endre, south of the commune of Callas, in the Var département. They are overlooked to the west by the Chapelle Notre-Dame de Pennafort. The Blavet gorges, carved into red volcanic rock, offer fine geological curiosities such as the Mueron cave. Hiking is possible.

**Scan to open the up-to-date spot page: weather, map and restrictions.**

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

# Preparing the flight

## Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

## Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

*Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.*
