Brey-de-Vent, 01500 Ambérieu-en-Bugey

Heritage · Ain

GPS coordinates	45.97378, 5.40988
Elevation	654 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Ambérieu Air Base (BA 278) (LFXA) 6.5 km W · spot 403 m higher
Spot reference	308064

La Tranclière Private Airstrip	Aerodrome	17 km NW	250 m
Aérodrome de Pérouges - Meximieux	Aerodrome	21 km SW	214 m

Description

At an altitude of 650 meters, in the lower Bugey, stands the Château des Allymes, "castrum Alemorum", a former fortified house that became a medieval castle. It is listed as a historic monument and is the only example of a medieval fortress in the Bugey. As the Château des Allymes is a historic monument and municipal property open to the public (ERP), flying over and filming above the castle's inner courtyard is prohibited, unless a request has been made to the town hall, followed by a written reply from it, and presented at the castle's reception. Flying over the outside areas and the lower courtyard remains allowed, but it is advisable to make a request to the town hall and to introduce yourself at the reception.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
