Description

The village of Esparron is perched at the entrance of the lower Verdon gorges. At the foot of the village, the turquoise waters of Lac d'Esparron are reflected, bordered by coves, cliffs and forests. This lake offers every kind of water activity, to the delight of young and old. In the surrounding area, nature remains unspoiled, with vast plateaus, lavender fields, and of course the deep Verdon gorges to discover. TO SEE, TO VISIT: The Château d'Esparron with its 10th-century tower. The picturesque old houses of the village. LEISURE: Sailing club from Easter to October (dinghies, windsurfing, rowing). Pedal boat and canoe rental, electric motorboat rental. Fishing (2nd category lake). Volleyball, tennis, hiking and horse riding. Mountain bike rental. Bauduen Located on the shores of the pure and calm waters of Lac de Sainte Croix, the old medieval village of Bauduen rises in an arc from …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
