FLIGHT CARD

Generated on 21 November 2026

Lac du Lachtelweiher Kirchberg

Mountain · Territoire de Belfort

GPS coordinates	47.77784, 6.93134
Elevation	740 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	Belfort Chaux Airfield (LFGG) 11 km SW · spot 323 m higher
Spot reference	308384

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:12	07:47	16:50	17:24	9 h 02	07:47–08:36 · 16:00–16:50
Sun 22 Nov	07:14	07:48	16:49	17:23	9 h 00	07:48–08:38 · 15:59–16:49
Mon 23 Nov	07:15	07:49	16:48	17:22	8 h 58	07:49–08:39 · 15:58–16:48

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Belfort Chaux Airfield	Aerodrome	11 km SW	417 m
La Tête Des Champs Altiport	Aerodrome	17 km NW	970 m
Ramonchamp ULM	Aerodrome	19 km NW	577 m

Description

ZP00015 "Lac du Lachtelweiher" Kirchberg (68) Flight height is limited to 50 meters in the open category (recreational) https://goo.gl/maps/yhXaqWEc2FM5UJeZ6 Lac du Lachtelweiher is a small lake on the Alsatian side of the Vosges in the Masevaux valley, within the commune of Kirchberg. It is located at an altitude of 740 meters. It is the southernmost of the Vosges lakes. From the lake, a trail climbs to the source of the Doller, at the Fennematt (922 m) Activities: fishing and hiking (swimming prohibited, at your own risk). It is now a great place for my drone piloting practice.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=308384

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
