Montaigu viewpoint

Mountain · Doubs

GPS coordinates	47.30135, 6.73137
Elevation	815 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Club ULM Haut Doubs 15 km SE · spot 65 m lower
Spot reference	308472

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:12	07:46	16:52	17:26	9 h 06	07:46–08:35 · 16:03–16:52
Sun 22 Nov	07:13	07:47	16:51	17:25	9 h 03	07:47–08:36 · 16:02–16:51
Mon 23 Nov	07:15	07:49	16:50	17:24	9 h 01	07:49–08:38 · 16:01–16:50

Aerodrome	Type	Distance	Elevation
Club ULM Haut Doubs	Aerodrome	15 km SE	880 m
Montbéliard-Courcelles Airfield	Airport	21 km N	317 m
Base ULM de Fontaine les Clerval	Aerodrome	24 km NW	401 m
Bressaucourt Airport	Aerodrome	25 km NE	569 m

Description

Montaigu viewpoint at Valoreille. Alain Samuel of altitude above the village of Valoreille, the Montaigu site offers a view both to the south over the Bernese Alps and the Mont Blanc massif, and to the north over the Ballons des Vosges. A viewpoint indicator helps you identify the different peaks, while the close-up view plunges down onto the valley, the Mèche plateau and the church of the Terres de Chaux.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
