Rieu Froid Viewpoint

Mountain · Vaucluse

GPS coordinates	44.19506, 5.16852
Elevation	524 m
Maximum height	50 m max
Access	On foot < 1,000 m
Nearest aerodrome	Clinique Pneumologique des rieux Heliport 18 km N · spot 208 m higher
Spot reference	308476

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:11	07:43	17:08	17:39	9 h 25	07:43–08:27 · 16:23–17:08
Sun 22 Nov	07:12	07:44	17:07	17:39	9 h 23	07:44–08:29 · 16:22–17:07
Mon 23 Nov	07:13	07:45	17:06	17:38	9 h 21	07:45–08:30 · 16:21–17:06

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Clinique Pneumologique des rieux Heliport	Heliport	18 km N	315 m
Aérodrome de Carpentras	Aerodrome	20 km S	120 m
Aérodrome du Plan-de-Dieu - Orange	Aerodrome	20 km W	93 m
Centre De Secours Heliport	Heliport	20 km SW	87 m

Description

If altitude is below 30 m, you get a 180° view to the south with more than 2 kilometers of clear space, so: - View of Malaucène - View of the Dentelles de Montmirail - View below of the Rieu Froid plain and the villages of La Valette and Beaumont du Ventoux If altitude is above 30 m relative to the takeoff point: - View of the north/west foothills of Mont Ventoux and the summit of Mont-Ventoux - View of Vaison la Romaine and Le Crestet - View of the summits of the Baronnies

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
