Cime du Cheiron - Jérusalem - Gréolières les Neiges

Mountain · Alpes-Maritimes

GPS coordinates	43.81501, 6.96967
Elevation	1,765 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Cipieres Alpes Dazur ULM 9.3 km SW · spot 611 m higher
Spot reference	308546

Spot location and restrictions (Drone-Spot map image)

Description

Cime du Cheiron - Jérusalem - Gréolières les Neiges - Côte d'Azur - Drone 4K/UHD - February 2022 This limestone mountain with jagged ridges divides the Estéron and Loup basins: its imposing, arid south face, clearly visible from the coast, rises as a backdrop in the gap of the Loup gorges, while its north face, with gentler terrain, hosts the ski slopes of the Gréolières-les-Neiges resort, the most maritime in the Alps! In fact, only 20 km as the crow flies separate the summit (1778 meters) from the waters of the Mediterranean. This exceptional location rewards hikers with a sumptuous panorama. To the south, you can see the Côte d'Azur from Cap Camarat (Saint-Tropez) to Mont Agel (Monaco), including the Lérins islands, while to the north you can pick out the peaks along the Italian border from Menton to the upper Tinée. To the west, the Arc de Castellane and the Tanneron mountains herald …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
