FLIGHT CARD

Generated on 21 November 2026

Genas

Unusual · Rhône

GPS coordinates	45.71936, 5.01740
Elevation	220 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	Lyon Saint-Exupéry Airport (LFLL) 5.0 km E · spot 30 m lower
Spot reference	308609

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:15	07:48	17:04	17:37	9 h 16	07:48–08:34 · 16:17–17:04
Sun 22 Nov	07:16	07:49	17:03	17:36	9 h 14	07:49–08:36 · 16:16–17:03
Mon 23 Nov	07:18	07:50	17:02	17:35	9 h 11	07:50–08:37 · 16:15–17:02

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lyon Saint-Exupéry Airport	Major airport	5.0 km E	250 m
Lyon-Bron Airport	Airport	5.7 km W	201 m
Hôpital Edouard-Herriot Heliport	Heliport	11 km W	199 m
Aérodrome de Lyon - Corbas	Aerodrome	11 km SW	198 m

Description

Flight spot in the middle of fields, with a few walkers from time to time. The path runs between 2 hedges that are great fun to fly through.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=308609

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
