Col de la Lombarde - Tête de l'Adrech d'en Barris - Isola 2000

Mountain · Alpes-Maritimes

GPS coordinates	44.20276, 7.15024
Elevation	2,348 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Altisurface d'Isola 2000 3.6 km S · spot 152 m lower
Spot reference	308669

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:03	07:35	17:00	17:32	9 h 25	07:35–08:20 · 16:15–17:00
Sun 22 Nov	07:04	07:36	16:59	17:31	9 h 23	07:36–08:21 · 16:14–16:59

Description

Col de la Lombarde - 2350 Meters - Tête de l'Adrech d'en Barris - 2472 Meters - Isola 2000 - Côte d'Azur - Drone 4K/UHD - March 2022 The Col de la Lombarde (in Italian: Colle della Lombarda) is an alpine border pass linking the Tinée valley in the Alpes-Maritimes in France to the Stura di Demonte valley, in Piedmont in Italy. At an altitude of 2,347 meters, this pass overlooks the Isola 2000 resort. On both sides it has a sustained average gradient for more than 20 kilometers, including a few kilometers approaching 10%. The road on the Italian side is narrow. It is located between the Cime de la Lombarde (2,800 Meters) and the Tête de l'Adrech d'en Barris (2472 Meters)

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
