FLIGHT CARD

Generated on 21 November 2026

The Montmayeur towers Villard-Sallet

Heritage · Savoie

GPS coordinates	45.48997, 6.12411
Elevation	791 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aérodrome de Chambéry Challes-les-Eaux (LFLE) 14 km NW · spot 494 m higher
Spot reference	308759

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:10	07:43	17:00	17:33	9 h 17	07:43–08:29 · 16:14–17:00
Sun 22 Nov	07:11	07:44	16:59	17:32	9 h 15	07:44–08:30 · 16:13–16:59
Mon 23 Nov	07:13	07:45	16:59	17:31	9 h 13	07:45–08:32 · 16:12–16:59

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Aérodrome de Chambéry Challes-les-Eaux	Aerodrome	14 km NW	297 m
La Fullie	Heliport	16 km N	1,394 m
Saint Rémy de Maurienne	Aerodrome	17 km SE	426 m
Centre Hospitalier Heliport	Heliport	18 km NW	319 m

Description

Built on the long Montraillant ridge that separates the Isère valley from the Gelon valley, the Montmayeur towers are a medieval site where the remains of a 12th-century motte-and-bailey castle still stand, still dominated by the north-east tower rising more than 20 meters above the ground. GPS coordinates of the spot N45.48952 E6.1233. Close to SAINT PIERRE-DE-SOUCY

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
