FLIGHT CARD

Generated on 22 November 2026

Les Viré-Court de l'Odet

Water · Finistère

GPS coordinates	47.92943, -4.13332
Elevation	28 m
Maximum height	30 m max
Access	Direct access by car
Nearest aerodrome	Quimper-Cornouaille Airport (LFRQ) 5.7 km NW · spot 62 m lower
Spot reference	309391

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:58	08:33	17:32	18:07	8 h 59	08:33–09:23 · 16:43–17:32
Mon 23 Nov	08:00	08:34	17:32	18:06	8 h 57	08:34–09:24 · 16:42–17:32

Base ULM de Ploballanec	Aerodrome	15 km SW	15 m
Glénan Heliport	Heliport	25 km SE	0 m

Description

This place is gorgeous, with beautiful colors in good weather, and the trail is pleasant. You can take off with your drone further along the trail (more to the south), since it's just as pretty and the regulation there is 50 m rather than 30 m. You still have to walk a bit to reach the river, but it's only 10 to 15 minutes from the parking lot. The spot lets you see the beautiful bends of the Odet as well as a small harbor and a pretty castle. I rated the flying difficulty as "medium" because the area is quite heavily wooded, but that doesn't change the fact that there is plenty of space...

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
