FLIGHT CARD

Generated on 21 November 2026

Douarnenez coast, the Roches Blanches

Water · Finistère

GPS coordinates	48.10448, -4.38942
Elevation	29 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Lanvéoc-Poulmic Air Base (LFRL) 20 km N · spot 58 m lower
Spot reference	309421

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:59	08:33	17:34	18:08	9 h 00	08:33–09:23 · 16:44–17:34
Sun 22 Nov	08:00	08:35	17:33	18:07	8 h 58	08:35–09:25 · 16:43–17:33
Mon 23 Nov	08:01	08:36	17:32	18:07	8 h 55	08:36–09:26 · 16:42–17:32

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lanvéoc-Poulmic Air Base	Airport	20 km N	87 m
Quimper-Cornouaille Airport	Airport	22 km SE	91 m

Description

This place is just gorgeous in good weather… like the whole north coast of the Pointe du Raz, for that matter… The parking lots are very close to the sea, but you'll still have to walk a bit on the trail. Take the time to find a good spot to take off with your drone. Watch out for the few gulls around!

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=309421

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
