Sainte-Tulle seen from the hill

Unusual · Alpes-de-Haute-Provence

GPS coordinates	43.78378, 5.75702
Elevation	356 m
Maximum height	50 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aérodrome de Vinon (LFNF) 5.6 km SE · spot 81 m higher
Spot reference	312284

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Mon 23 Nov	07:10	07:41	17:05	17:37	9 h 23	07:41–08:26 · 16:20–17:05
Tue 24 Nov	07:11	07:43	17:05	17:36	9 h 21	07:43–08:28 · 16:20–17:05
Wed 25 Nov	07:12	07:44	17:04	17:36	9 h 20	07:44–08:29 · 16:19–17:04

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Aérodrome de Vinon	Aerodrome	5.6 km SE	275 m
Saint Martin de Castillon	Aerodrome	19 km NW	335 m

Description

Access by car via the chemin de Saint-Jacques (small car park at the top of the path, on the right). After a 5-minute walk, you get a clear view of the old village of Sainte-Tulle. You can also see the snow-capped Alps in winter.

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=312284

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
